The New Transcontinental Line From Lewis to Montreal Will Be Finished by Early Next Spring

CAR FERRIES TO BE USED PENDING COMPLETION OF QUEBEC BRIDGE

Portion of Line East of Lake Superior Junction Will not be Completed for Two Years According to Reports

Ottawa, Aug. 12.—The Transcontinental railway from Lewis to Montreal will be open for traffic in the early spring of next year, according to reports received at the offices of the commission here.

The completion of this section will put into operation one of the most important links of the whole line. Arrangements are already being made in a preliminary way for car ferries across the St. Lawrence pending the construction of the Quebec bridge.

From Quebec to Montreal, the new line is about completed, but from the latter point to Lake Superior Junction, it will not be done for two years. On this interior section, the work has been held back until supplies and a plant could be obtained in from the other end of the line. The distance as well as the character of the country made it practically impossible to have a locomotive plant. The section from Lake Superior Junction to Winnipeg will be ready for regular operation this fall. On the strength of the reports above indicated it was stated today at the Transcontinental commission's office that next season the Grand Trunk Pacific will, in connection with the existing rail and boat lines be able to handle grain from Edmonton to Halifax and St. John.

## SUCCESSFUL PUPILS IN WESTWARD HO COLLEGE

Large Number of Those in Attendance Gain Promotion During the Year—Marked Increase in Attendance Demands More Accommodation

Westward Ho college for residential and day boys, which has held its year's work to a conclusion and the examinations for promotion have been held. The results given below are a good indication of the progress which the boys made during the year.

In the Fifth form (the matriculation) the school sent up one boy, R. P. Wilkie, who was accepted for entrance to the University of Toronto, with credit in his school. The examination was held under the auspices of the University of Alberta, Strathcona.

The following masters formed the staff: W. H. Nahlke, B.A., headmaster; Rev. R. J. Jeffries, B.A., housemaster; C. B. Beck, B.A., headmaster; H. Carlie.

The attendance during the year has shown a marked increase and the difficulty foreboding the autumn will be the lack of accommodation for the boys who have applied for admission.

During the year the boys entered hastily into the various sports. In the summer they played with the Edmonton Cricket club. The coach, E. P. Wood, was pleased with the progress made.

One important item in connection with the school is the keen interest shown by friends resident in the city and province. Most of the prizes during the year have been presented by well-wishers.

The following is a list of the prize winners:

General proficiency, First Form, presented by E. C. Emery—J. W. Hume.

Lower Second Form, presented by E. C. Emery—Howard Emery.

Upper Second Form, presented by H. D. Nelson—Douglas Emery.

Third Form, presented by the school—Dorcas C. Wilkie.

Scripture, Second Form, presented by P. C. Emery—E. K. Kirkpatrick.

Mathematics, Lower Second Form, presented by headmaster—Howard Emery.

## CANADIAN NORTHERN IMMIGRATION WORK

Colonel Davidson Describes the Establishment of a New Branch of the Colonization Department—Look for Many Settlers Along the Lines of the Canadian Northern Railway

Winnipeg, Aug. 11.—When I last passed through Winnipeg, said Col. Davidson, of the Canadian Northern Railway, "I was on my way to England on business. The work has been held back until supplies and a plant could be obtained in from the other end of the line. The distance as well as the character of the country made it practically impossible to have a locomotive plant. The section from Lake Superior Junction to Winnipeg will be ready for regular operation this fall. On the strength of the reports above indicated it was stated today at the Transcontinental commission's office that next season the Grand Trunk Pacific will, in connection with the existing rail and boat lines be able to handle grain from Edmonton to Halifax and St. John."

Thirteenth Settlers. "There is quite a movement of a very desirable class of citizens from the Pacific coast, where they are more numerous, experienced farmers, to the Canadian Northern Railway. I look for a particularly large influx of settlers from the States during the next year, perhaps larger than that of any other year. I found, while at the coast, that a great many of the States and English firms have their representatives in the British Columbia, with a view to the acquisition of land. This means, of course, that good tracts of timber land are likely to command high prices. I have heard of this before."

## JACK BRENNAN IS OUT OF THE GAME

The First Third Baseman of Edmonton Team, Sprains His Ankle and Will Be Out for a Week

On the trail of the league leaders, the Edmonton team today returned to the city this morning by the early C. N. R. train for a week-end series here with Lethbridge. In its three weeks tour of the west, the club of the league the team played sixteen games, winning eleven and losing five. The team is now in the second in second position, while it stood when starting the series away from home.

White, this morning, expressed to the bulletin his confidence that Edmonton would close up the slight gap between first and second position before the final series with Lethbridge. In that series he looks to wear first place from Calgary.

"We can win Calgary and they know it, and are afraid of us," said the captain. "Every time we swept up the series while we were away, they slipped in their shoes. Somehow or other the league will be made to see us lay down to Calgary when they do not lose through hard luck, but through carelessness."

"We did down Calgary last night, but it was a different story to tell," said the captain. "We were not at all," said Manager White in discussing the defeat suffered by Edmonton last night. "We were not at all," said Manager White in discussing the defeat suffered by Edmonton last night.

## AROUND THE CITY

## LOCAL.

G. D. Parker, crop expert, who is supplying a series of reports on Western crop conditions to the Winnipeg Free Press, arrived in the city yesterday and is staying at the Elms Hotel.

Arrangements are being made for a picnic in which the combined Presbyterian Sunday schools of the city will take part. The picnic will be held at Labor Day, September 5th, and the place, Port Saskatchewan. A special train will be secured for the trip and a large attendance is anticipated by the committee having the arrangements in hand.

A solid mahogany china stand, valued at \$15, has been donated by J. Travis-Barber as a prize for the winner of the best appearance in the labor day parade on September 5th. The members of the team presenting the best appearance look for possession of it. Other prizes will probably be offered for the parade.

## CALL TO FUSILIERS.

As many as possible of the officers, non-commissioned officers and men of the 101st Edmonton Fusiliers are requested to parade for company with the army band, at the particular attention is to be given to the ceremonial drill in preparation for the guard of honor to be given to his honor the Lieutenant-Governor on the occasion of the opening of the Edmonton exhibition.

**AN ADDED ASSESSMENT.**  
Stanley Black got more than he expected at the police court yesterday afternoon. Stanley was charged with serving a vicious dog which had bitten the three-year-old son of James Carstairs. He pleaded guilty to the charge and was fined one dollar and costs. As he was paying the fine the clerk of the court happened to ask him the number of his dog license. It developed that Black was keeping a dog without a license and consequently was not paying any tax. Much to Stanley's annoyance he had to hand over five dollars.

## BRIDGE CONTRACTORS' OFFICES.

Work was begun on Wednesday morning on an office building for John Gurn and Sons Co., Ltd., of Winnipeg, contractors for the high level bridge substructure, at the foot of the hill at Ninth street. This building will be completed by the middle of the month. On Monday the building of bulkheads on the flat bed of the Halfway gravel washing plant will be completed. The location of the piers on the bank of the river has been finally staked out by the engineers of the company.

Before the actual work of constructing the bridge foundations can be started, the Ottawa and Quebec companies have to install new double riveted beams at the bolters now used by the company to meet the requirements of the Alberta Bolter Inspection Act.

## A TENOR WITH MELBA.

Albert Quesset, the French Canadian tenor, who returns to America under engagement with the Metropolitan Opera Company, has been secured by Melba for her Canadian-American tour. This was rendered possible as the engagements do not commence until November, and Melba's concert tour will terminate there as he permits the days to his operatic engagements in New York and Chicago. Melba, journeying to the Opera House in Paris to hear Mr. Quesset, and was so impressed by the beauty and remarkable range of his voice that he immediately engaged him for her concert tour and also for her first appearance in Australia in 1912. Mr. Quesset has been abroad for several years and has met with marked success, having been a member of the Opera, Paris, and the Metropolitan, which he has sung in the Melba concert, now open at Harmony Hall, will shortly be closed.

## WAS IT ACCIDENTAL?

Benjamin Watts, brother of the unfortunate man who was found dead on the Stony Plain trail some days ago, stated to Inspector Watson of the R.N.W.M.P., that as far as he knew his brother would have no motive for committing suicide.

"My brother was of a cheerful disposition and in my opinion would not be the last man in the world to kill himself."

The only explanation of the matter that I can give is that he met his death accidentally or came by it in some way."

Up to some months ago Benjamin Watts had been living with his brother Walter in the shack on the Stony Plain road, but lately has been living in Camrose.

The inquest into the death of Walter Watts will be held this afternoon in the undertakers' rooms of Connolly and McKimley at which Mr. E. A. Miller, of Ashbur, Ontario, will be the next first view-president.

## FERGUSON TO BE ELECTED.

Toronto Man Will Be President of Sons of England.

Ottawa, Ont., Aug. 11.—At today's session of the Sons of England, the record, the official organ of the order, was the subject of much discussion. The most of the department was severely criticized as to the methods of delivering society literature. It was claimed that whole bundles of such matter were thrown aside as unimportant.

The meeting decided that the widow of deceased members would not be allowed to contribute to the funds of the society in that she might be entitled to a death claim in case she died before her husband.

The election of officers will be held tomorrow morning. It is practically assured Mr. Ferguson, of Toronto, first view-president, will be new supreme president, and that Mr. E. A. Miller, of Ashbur, Ontario, will be the next first view-president.

## LIGHTNING DOES MUCH DAMAGE.

## Severe Electric Storm in Montreal

## Keeps Fire Brigade Busy.

## Montreal, August 11.—A severe electrical storm broke out this afternoon and caused considerable damage to property. The fire brigade was kept on the run putting out fires by lightning.

## The steps of St. Andrew's church, Beaver Hall Hill, was struck, but no damage was done by the fire.

## A man on a street car was so severely burned that he had to be removed to the hospital. A hole was burned through his car.

## At last a bullet came along and blew Hitch's right shoulder half to pieces. He could not shoot or bayonet any more, but he helped as best he could to serve out ammunition.

## Subsequently he was sent home to Victoria Hospital. Another Queen Victoria went one day and joined the Victoria Cross on his breast as he lay in his cot. New Private Hitch drives a taxicab.

## It was seen last night at the little flat in Chelsea, where he lives with his daughter and son-in-law. A fine upstanding figure of a man is Private Hitch, strong in the face, clear of eye, and full of the old-time English soldier.

## I had to take to something," he explained, "and as the taxicab business had practically ruined me, I thought I best try to do so as to get some of my own back."

## I was doing pretty well as a cab-driver till the taxicab came on the scene. I had fifteen cabs of my own, as well as horses, and the property was worth \$500. Then the taxicab came there and appeared, and, of course, we fellows who drove cabs, so in a couple of years I was ruined.

## I had to get something to do. I knew all about the street traffic and the driving goodness as I was taught how to become a chauffeur. In March I passed the Scotland Yard examination, and I was driving a taxicab ever since.

## TO STOP ILLEGAL TRAFFIC.

## Ottawa, Aug. 11.—The Dominion police received a report this morning from officers they sent to Lacrosse stating that the situation there is quiet and that there has been no disturbance with the liquor stores.

## The force is instructed to stay on the ground till the illicit traffic is effectively suppressed. The Transcontinental Commissioners have sent a legal representative there to conduct proceedings.

It is expected that this portion of the building will be ready for occupation at next year's session of the legislature. Work is proceeding more slowly on the main section of the building.

## CURIOSITY TAKES 2000 TO THE JAIL

Interest in Place Where Crippen and Ethel Levene are Confined Continues

Quebec, Aug. 11.—It was stated by an official here today that the extradition papers for Dr. Crippen and Miss Levene might not be taken into consideration until the next month, but he expected that they would be heard on Tuesday next, as the prisoners could not be taken from the jail before that time. Afterward, he said, he had been told that the government would take the prisoners back to England at their earliest convenience after August 15th.

Dr. Crippen's health. Inspector Dew had an interview with the Deputy Attorney General today and remarked that he had nothing for the press.

At the Quebec jail today Governor Martin stated that the prisoners continued to be in good health. Their appetites are good and neither showed any signs of worry. They still continued to read light literature.

Asked if Miss Levene's health gave any cause for anxiety the governor said that he had not been ill since she came to the jail.

Eager for Return to England. From another source it is learned that Miss Levene is looking forward with considerable eagerness to her return to England, and that she considered it a good sign that she is showing considerably anxiety to see her personal appearance. She is much interested about her hair, which had to be cut off when adopting the disguise of a boy.

Although nobody outside of officials is allowed to see either of the prisoners, the public continues to show great interest in the case since Crippen and Miss Levene have been confined there, the visitors granted permission to view the building number over 2,000.

## CHARLTON HEALING DEFERRED

Extradition Proceedings Held Over

New York, Aug. 11.—A move was made today in behalf of the Italian government in the case of Porter Charlton, who is charged with having murdered his wife at Lake Como, Italy, and is being held in Jersey City, awaiting extradition proceedings. The hearing set for today in the Charlton case went over by agreement until September 2nd, but Gustavo Brown, the Italian vice-consul in New York, appeared before Superior Court Justice Blair in Jersey and filed with the justice the dossier in Charlton's case.

RECALLS THE JAMESON RAID.  
Leader of Raid Said It Was Not Intended to End Dutchman.  
Dorham, Aug. 11.—Dr. Jameson, leader of the opposition, speaking here, said that it was not sought by means of the famous raid of December, 1915, to replace Dutchman by Englishmen in the Transvaal. During the raid he carried a letter containing a list of the proposed new executive, including Louis Meyer. Though the raid was badly carried out and thoroughly deserving of punishment it got by and it is sufficient proof of the federation of South Africa, which was Cecil Rhodes' policy.

## AN OLD LONDON INN IS TO BE DESTROYED

Is Over 300 Years Old—Place Often Visited by Oliver Cromwell to Fall in Mark of Progress—Is Called "Ye Olde Hise."

London, August 11.—A tavern with a lineage that may be a duke might say closed its doors to the public eye today. For more than three centuries Ye Olde Hise, on the west side of Dorset street and within a stone's throw of the river, has been a place of resort for a clientele which has varied almost with each generation. In the days when taverns were the haunts of political, religious and government men, and made annuals in their hospitable parlors the Hise has been the favorite haunt of many well-known men.

It is a small, obscure, dingy house. There is nothing attractive on the outside, but internally there are many evidences of the great age of the building. Its wooden walls are dark and crumbling with years, and the street side has become so dangerous that the whole building has been condemned. There is only one place where its most notable ornament, an oak bar, and some cabinet of Spanish mahogany, in which were kept the keys of the building, are now in the sale of property.

**No Records Kept.**  
There do not appear to be any authentic records of the use made of the Hise. Last by distinguished men, the newspaper office that frequented the neighborhood. Richardson, broker and novelist, is believed to have been a frequent caller, dropping in from his office in London. The Hise was also the home, and as it is in the immediate vicinity of the old London newspaper office, many eminent authors and journalists of the past were in its proximity frequently.

At the end of the tiny bar there is a door covered with brass plates, with an oval window in the center, and "Parlor" printed on it in American spelling. On the wall this interior sanctuary had some very fine portraits, the subjects being Lord Castlereagh, Christopher Columbus, of a Spanish, the caricatured David Livingstone, the "The Christian's" explorer; Traversha and Macgillivray. It is not suggested that all these distinguished men, east of all London, used the Hise, but a body carried "off" on the side of one of the high

He was willing to share the advice of the war office that South Africa should be self reliant, but further, he said, he would do everything possible to assist the empire which had given the Transvaal her freedom, education, his claim, would be the dominating force in the campaign.

**HUGHES ON MAYOR'S CONDITION.**  
Judge Charges Jury to Await Report on Mayor's Condition.  
Jury, Aug. 11.—The Supreme Court Justice, Hughes today charged the special Hudson county jury in the attempt to assassinate Mayor Hughes.

He practically told the jury that it would be unwise at this time to take the matter up with the idea of indicting Mayor Hughes, but he said that for the reason that the whole matter was now based on the condition of the Mayor. In the event of the Mayor proving fatal (alligator) could be indicted for murder.

## PREMIER DISCUSSES TARIFF AT RED DEER

Regrets Prejudice in Cattle Addresses to Create Unnecessary Distinctions Between Farmers and Manufacturers as Causes—Says Tariff Now in Interest of Canada.

Red Deer, Alta., Aug. 11.—The open air meeting was disturbed by Jupiter Pluvius, heavy rain forcing Sir Wilfrid and party to retire to the Dome Theatre, where speech-making was resumed.

Premier Sifton opened the proceedings, declaring that the general population and transportation the Western people will work out their own salvation.

Hon. Frank Oliver claimed credit for the government for a large share of the development and prosperity of the West. The results had not been achieved with the assistance of the Dominion, upon whom and attempt to do so, and he characterized the Premier as the best of optimists of Canada.

Sir Wilfrid added that he had been studying the addresses recently presented and he regretted one sentiment in them, an unfortunate tendency to create divisions between the farmers and the manufacturers.

**Tariff for Revenue.**  
He declared that our fiscal policy is no protection for certain classes at the expense of others. We do not tax for protection but for revenue, and it is not our policy to have continuous tinkering at the tariff, as it creates a state of uncertainty and discourages enterprise. "We had a revision in 1857 and in 1897," he said, "and in course of time we will have another, which I hope and expect, will witness a further reduction of tariffs."

## LOWER TARIFF, LOWER WAGES.

This Is What Frank A. Munsey Says.

Baltimore, August, Aug. 10.—Frank A. Munsey, of New York, who is now here, believes the "Anti-Trust" campaign pending before the United States Supreme Court form a factor that may keep the breakers on financial activities with which business must contend. Mr. Munsey says a lower tariff means lower wages for labor. He does not want any stock in the talk of

## BRITISH WEEKLY'S COMMENT.

Canadian Associated Press.  
London, Aug. 11.—The British Weekly says: "For once we almost envy any Liberal member going down to the country. The Canadian revolution, however, is not a threat that it cannot be silenced or suppressed by any conspiracy of United papers. It is a movement that Canada's farmers desire to preference in the British market. The Canadian manufacturers will fight hard, but the future of Canada is in the west."

## \$100,000 PLANT FOR THE HAITI.

Medicine Hat, Alta., Aug. 10.—Major Mitton and Ad. Favoret, who went to Winnipeg to close the deal for the purchase of the land, returned here today. The Canadian government is to install a hundred thousand dollar plant in the city this fall.

## REPEATED HIS WILLINGNESS TO NEGOTIATE.

He repeated his willingness to negotiate a reciprocal treaty with the States on fair lines, but experience had taught the value of doing otherwise as they did it, "but do it first."

**An Important Statement.**  
Sir Wilfrid made an important statement dealing with the request for aid to the chilled meat industry. The market for Canadian cattle, he pointed out, owing to the tariff relations with the United States, was England. Two great exporters of dressed meat were Australia and New Zealand, and what they have done can be done by Canada.

If it were similar cold storage facilities to such as had been given the latter and chosen grade of cattle, such in importers, there is no reason why the meat trade of Western Canada should not be similarly served. "We have written him, Mr. Fisher today," said the premier, "telling him to appoint a commission if necessary."

## AUTO PARTY WRECKED.

London, Ont., August 11.—A disastrous attempt was made upon an automobile party near here last night. While nearing the city they crashed into a telephone pole and, right across the road. The Mayor, his wife, daughter and chauffeur were badly shaken up and the machine almost demolished.

The marriage of Miss Lettie Mann, second daughter of C. G. Mann, Indian agent at Hobbema, Alta., and F. W. West, of the Commercial Union of Commerce, Province of Alberta, is announced to take place September 14, 1910.

W. L. Crafts, of the Commercial Union of Commerce, Edmonton, Mr. Gallinger and Miss M. H. Houp, of St. Paul, daughter of the state superintendent of education, paid a visit to Toldit recently and spent a day looking over the pleasant surroundings. Mr. Crafts was greatly surprised with the wonderful growth of Toldit since his last visit two years ago. Miss Houp, who came from St. Paul, was greatly taken with the appearance of the town and the fine scenery surrounding. They saw some splendid examples of grain grown this season in the Toldit district which beat anything they had seen at other places this year.

## ADVERTISING IN EDMONTON.

The names and addresses of several thousand citizens of the United States, who are interested in Alberta, and wish to receive information concerning the Edmonton district, have been given to the board of Trade by J. McKay Dickson, who has been acting as immigration agent of the provincial government in the United States. Mr. Dickson came in contact with these people or their friends on his recent visit to Indiana, Ohio and Iowa and the New England States. ## CHILD ALARM RESIDENTS.

Residents in the vicinity of Saskatchewan and Third avenues were rudely awakened from their slumbers about two o'clock this morning by loud cries coming from a tent almost on the corner. An officer of the peace was summoned and entered the tent. He found the owner of the tent, Fred Zimmerman, and his wife, engaged in an altercation. Zimmerman was taken to the police court this morning, where his wife stated to Chief Lacey that he had threatened doing violence to the children and herself.

Zimmerman, who is the father of six children, came from North Dakota, and has only been in the city for a few days. He will come up for trial next week and in the meantime has been lodged in the cells.

The death took place early this morning, at his home on Namayo avenue, of Philip Wagner, aged 45 years. Mr. Wagner, who was one of the old timers of Edmonton, had been ill for some time, suffering from pernicious anemia, but his condition was not thought to be alarming. He returned from his farm at Beaver Hills several days ago and last night was visited by his physician, Dr. Wright, who found him apparently not in dangerous condition. This morning, when members of his family went to his room, they found he was dead, having expired during the night. He leaves to mourn a wife, now at Beaver Hills, and six children. Mr. Wagner was for some years past in the employ of the Dominion Land Office as interpreter. Owing to sickness he has not worked for some months past.
